

September 2007 HepTalk Listserv

Welcome to the HepTalk Listserv. In honor of **National Adult Immunization Week, September 24-28**, we call your attention to an excellent source for patient education materials in many different languages, some of which we have featured here before. The IAC or **Immunization Action Coalition** is another one of our CDC partners in the Viral Hepatitis Education and Training program. They offer many different kinds of **patient education materials about Hepatitis A and B vaccines**. They're easy to access and easy to download as pdf files, so they can be printed and distributed at your clinic, and they are **available in Spanish**. We have chosen a few of the resources most relevant to adult immunization and Hepatitis, but be sure to check all of their excellent resources.

1. Immunization Action Coalition www.immunize.org

From their website: *You are now visiting the nation's premier source of childhood, adolescent, and adult immunization information and hepatitis B educational materials—camera-ready and copyright-free! Comprehensive information about vaccines and vaccine-preventable diseases can be found on our sister website, www.vaccineinformation.org*

Help yourself to the unique resource materials we offer. All of our print materials are camera-ready, copyright-free, and reviewed by CDC for technical accuracy with the exception of opinion pieces written by non-CDC authors. Our materials are ready for you to make copies and distribute to your patients and staff. Be our guest!

2. Hepatitis A Immunization Resources from IAC

Hepatitis A Vaccine Information Statement (VIS)

Source: Centers for Disease Control and Prevention
Available in English and 26 additional languages on IAC's website at:
www.immunize.org/vis/vis_hepa.asp

Hepatitis A Fact Sheet

Source: Centers for Disease Control and Prevention
www.cdc.gov/ncidod/diseases/hepatitis/a/fact.htm

Prevent Hepatitis A (brochure)

Source: Centers for Disease Control and Prevention

HepTalk is a project of the Migrant Clinicians Network and Community Health Education Concepts. HepTalk is funded by the Centers for Disease Control and Prevention. The goal of HepTalk is to help clinicians serving migrants and recent immigrants engage in productive discussions about hepatitis risks with their clients and help them make prevention plans. The

HepTalk listserv is a support service for clinics participating in the project. This is a post-only listserv and postings will come from HepTalk staff about once a month. If others at your clinic would like to be on the listserv, or if you have questions about the listserv or resources listed here, or if you would like to add something to the posts, please contact Kathryn Anderson, HepTalk training and education coordinator and listserv administrator, at kath@healthletter.com. You can also contact the listserv administrator if you would like to unsubscribe from the list.
